## 2012 Ranger Z522 Comanche

With more deck space, lockable storage, more fuel capacity, and more all-out performance from start to finish, the Z522 Comanche has more of everything you need to take high performance angling to the next level. With an overall hull length of 22' 4", this powerhouse packs a maximum rating of 300 horses and a cockpit built for optimum comfort and convenience. Sixty-four gallons of fuel capacity center the frame while Sea Star Pro fluid steering, SRS Soft Ride Seating, and our exclusive internal fiberglass superstructure all work together to deliver an incredibly smooth, stable, and responsive ride. Inside, the massive decks cover a wealth of compartments, including lockable storage with tapered tubes for rods up to 8' 6" in length. A polished aluminum 7-gauge performance instrumentation cluster, digital ignition and switching, a Minn Kota trolling motor, stainless steel compression lid lock system and a three bank on-board charger all add up to absolute domination. The Z522 Comanche. It's built to take charge and leave everything else in its wake.
