ELEVATED EXPERIENCE

Inside, a wider cockpit and seamless sightlines create a space that's expansive and ergonomic. Everything you touch feels overbuilt in the best way: CoolFeel vinyl, refined cupholders, wireless charging, and intuitive cubbies. Dual digital displays with MasterCraft MyDrive put the captain in complete control, while the optional stern thruster and four-camera system make maneuvering effortless. Even the observer gets their own angled screen with full control of the in-boat experience.

DESIGNED FOR MORE

It starts at the back—a wider, more grounded transom welcomes you in with redesigned loungers and clever under-seat storage. Hidden beneath: a fully integrated board storage system with removable padded board bags. Between the bimini, holding up to six boards, and the rear compartments, the X24 can carry up to 10 boards cleanly and out of the way. Prefer racks? Add them in black, silver, or gold—because personalization matters at every level.
